- Churchill P.S. opened in September 1955. It consisted of 2 rooms (now #8 and #9). The school had no books at the time and had to get old books from Eden P.S. Planks were set up outside as the entrance to the school was muddy. The building was built by Gibson Construction Company.
- In 1957 the first addition was added. Rooms #6, 7 and the Conference Room were added.
- In November of 1960 the second addition was added – Rooms #1,2,3,4 and 5. Room #1 and 2 were used as the gym, Room 4 was Kindergarten, and Room 3 was the library.
- In September of 1966 the third addition was added – the present office, gym, and senior wing of the school.
- In September 1971 the fourth addition was added – the Life Skills and Tech rooms. The Library reading room was also added.
